LANTERN STUDIO

Packaging stamp · actual-size proof

Impression diameter 38 mm, measured across the outer ring · one colour, solid black on white

38 mm

Actual size: 38 mm impression, printed at 100 percent

PRINT AT 100% — ACTUAL SIZE

Turn off “fit to page”, “scale to fit” and “shrink oversized pages”.

Print on A4 at 210 × 297 mm, no border adjustment, and check the bar below with a ruler.

MEASURE THIS BAR

This bar is 10 mm on the page.
If your ruler reads anything other than 10 mm, the printout is not actual size — do not measure the stamp from this sheet, reprint at 100 percent.

FILES IN THIS SET

lantern-studio-stamp-38mm.svg

Editable vector master. 38 × 38 mm, one user unit = 1 mm. Type is outlined; ring, lantern and name are separate groups.

lantern-studio-stamp-1200.png

1200 × 1200 px screen preview of the same artwork. Not for print.

lantern-studio-proof-A4.pdf

This sheet: the 38 mm impression at actual size, with a 10 mm scale bar.

lantern-studio-review-preview.png

Large, clearly not actual size: for judging open counters and internal gaps on screen.

WHAT THIS IS, AND IS NOT

This is stamp artwork and a scale proof. It is not a manufactured stamp and has no production approval.
The impression above shows the intended design only. Real results depend on the paper, the ink, the pressure and the maker, so the design still needs an actual stamp test before it is trusted on packaging.
Thin gaps and small counters can close up or fill in once inked; check them on a real impression first.
